

How to Draw a Robin

- 1 Draw a small circle to form the eye of the bird.
- 2 Draw a small v to the left of the eye.
- 3 Draw a longer v, opposite the already existing v, to form the beak.
- 4 Draw a big u shape, from the beak and around the eye, to form the head.
- 5 Draw the tummy of the bird. Start at the beak and draw a straight line downwards and then curve to the right.

- 6 Draw the wing, then a curved back.
- 7 Draw the robin's tail below its wing.
- 8 Draw some curved and straight lines on the wing and tail to show the robin's feathers.

- 9 Draw two lines to make a branch, close to the robin's breast.
- 10 Draw two small feet perched on the branch.
- 11 Colour in your robin.
